# Jon Surch New Managing Director at Eltosch Grafix America

**Effective January 1, 2017 Jon Surch was appointed the position of  
Managing Director for Eltosch Grafix America.**

With over 25 years of experience in the printing industry prior to joining Eltosch Grafix, an internationally acclaimed manufacturer of industrial drying & curing technologies with a prominent position in the sheetfed offset printing segment, Surch was Vice President of Operations at manroland, Inc. with responsibilities for North America.

Jon Surch is excited for the opportunity to further improve the market presence of Eltosch Grafix America and to solidify relationships with OEM partners across all market segments.

As an alignment for this appointment we are pleased to announce his predecessor Brook Henschen, as she had requested a move to focus more on family matters, has accepted a position in finance and administration within the company.
